Call Sign: E990402
File No.: SES-MFS-20131112-00954

Dear Ms. Hindin:

On November 12, 2013, Globecomm Systems, Inc. (Globecomm) filed the above-captioned application to modify its fixed earth station in Hauppauge, NY, to add new frequencies of operation (10950-11200 and 11450-11700 MHz) and to add two non-U.S. licensed satellites as points of communication (Eutelsat AB-1 at 12.5° W.L. and Eutelsat AB-2 at 8.0° W.L.). Pursuant to Section 25.112(a)(2) of the Commission's rules, 47 C.F.R. § 25.112(a)(2), we dismiss the application, without prejudice to re-filing.¹

Section 25.112 of the Commission's rules, 47 C.F.R. § 25.112, requires the Commission to return, as unacceptable for filing, any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules. Globecomm's request to add Eutelsat AB-1 and Eutelsat AB-2 as points of communication did not provide technical information for the non-U.S. licensed space stations, in the form of a Schedule S, as required by Sections 25.114(a) and 25.137(b) of the Commission's rules, 47 C.F.R. §§ 25.114(a) & 25.137(b).

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. § 25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. § 0.261, we dismiss Globecomm's above-captioned application as incomplete, without prejudice to re-filing.

Sincerely,

Paul E. Blais
Chief, Systems Analysis Branch
Satellite Division
International Bureau

¹ If Globecomm re-files an application identical to the application dismissed, with the exception of supplying the corrected information, it need not pay an application fee. *See* 47 C.F.R. § 1.1111(d).
